

METSÄTEOLLISUUDEN KOMMENTTIPUHEENVUORO

Habitaattipankki – luonnon monimuotoisuuden
suojelun tulevaisuus?

Pikkuparlamentti, 29.9.2016

Karoliina Niemi
Metsäteollisuus ry

REGULATORY AND STRATEGIC FRAMEWORK AND THIRD-PARTY AUDITED VOLUNTARY INSTRUMENTS TO DEMONSTRATE SUSTAINABLE FOREST MANAGEMENT

Finnish national forest related legislation (additional to EU regulation) and supportive guidance

- Forest Act
- Nature Conservation Act
- Wilderness Act
- Act on the Financing of Sustainable Forestry
- Land Use and Building Act
- Antiquities Act
- Environmental Protection Act

-The Forest Biodiversity Program METSO

-Best Practice Guidelines for Forest Management and Energy Wood Harvesting

Global, Pan-European and EU forest related legislation and strategies

Global

- Convention on Biological Diversity (CBD) + Nagoya Protocol
- Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES)

Pan-European

- Forest Europe SFM Principles and Criteria

European Union

- Timber Regulation
- Renewable energy Directive (RED)
- ILUC Directive
- LULUCF (EU and global)
- Birds and Habitat Directives (e.g. Natura 2000)
- Water Framework Directive
- Directive on Marketing of Forest Reproductive Material
- Regulation on Invasive Alien Species
- Biodiversity Strategy
- Forest Strategy
- CAP – Rural Development
- Communication on Green Infrastructure

Global and European voluntary forest-related standards (also ongoing processes)

- FSC and PEFC forest management certification
- FSC and PEFC Chain of Custody certification
- ISO 13065: Sustainability criteria for bioenergy
- ISO 38001: CoC for wood products
- CEN 383: Sustainably produced biomass for energy applications
- CEN 411: Sustainability of bio-based products (several sub-processes)
- ISCC 202: Sustainability requirements for the production of biomass
- Sustainable Biomass Partnership (SBP)
